

## HI-END L.P. TREATMENT KYMYAS SERIES HI-FI LP RESTRUCTURING

Congratulations on your purchase of a GOLD NOTE product!

This accessory was conceived to completely restore the surface of damaged records. Composed of two bottles, of which the first functions as a detergent, preparing the surface of the record, and the second creates a micro thin film coating, constructed of a symmetric molecular structure that completely restores the record's micro-grooves, rendering the record's surface completely static-free.

A Record treated with KYMYAS will maintain its properties for up to six months (depending on the use of the record).

### READ INSTRUCTIONS CAREFULLY BEFORE USING THE PRODUCT

1) Dampen a cotton ball with the liquid from bottle no. 1 and delicately clean the surface of the Record. Wipe until completely dry with a clean cotton ball.  
If necessary repeat the above procedure.

2) Dampen a cotton ball with a SMALL quantity of liquid from bottle no. 2 and apply, using a circular motion, to the Record surface and wipe until achieving a perfectly smooth uniform surface. DO NOT TOUCH the record surface with your fingers after the treatment.  
(Please note that the turntable's needle may collect any remaining liquid left in the micro-grooves.)

### PACKAGE CONTENT:

N. 1 BLUE CLEANING LIQUID (1)

N. 1 TREATMENT LIQUID (2)

**GOLD NOTE IS NOT RESPONSIBLE FOR ANY DAMAGE CAUSED BY OWNERS IMPROPER USE OF THIS ACCESSORY.**

### DESCRIPTION:

Clear liquid  
Aqua  
PROPYLENE GLYCOL BUTYL ETHER  
Methoxyisopropanol  
Propylene Glycol 1%  
Capryl Glucoside  
Ethanolamine  
Sulphuric Acid  
mono-C10-1alkyl esters  
sodium salts  
Ammonium Hydroxide 1%  
1-butoxypropan-1-ol  
Parfum  
Sodium Laureth Sulfate 0,2%  
Colouring Agent  
Colour (APHA)  $\leq 10$   
Identification - Positive  
Water (K.F.)  $\leq 0.5$   
Heavy metals (Pb)  $\leq 1$  ppm  
Residue on ignition  $\leq 10$  ppm  
Assay (GLC)  $\geq 20$  %

### WARNINGS:

Do not swallow.  
Avoid contact with eyes.  
Keep out of reach of children.  
Do not disperse in the environment.
